Nuisance  
Grounds

Council then held a considerable discussion on the situation of the existing nuisance grounds and the need for more room. The Lowe Farm site has room for one small pit and there was questions raised to to how to cover the last remaining pit if a small pit is dug and also what condition the site is to be left in when it is finally finished. Council felt that the site should be left with a good thickness of dirt cover and that Councillor Harold Dyck is to contact the land owner to see if more dirt could be had to provide a completed and proper cover for the site. There is a new site available north of Lowe Farm on the NE¼ of Section 19, Township 5 and Range 1 W.P.M. currently owned by Mr. Ron Wiens and is approximately 36.5 acres in size. This new site would cost approximately \$500.00 per acre.

With regards to the Rosenort nuisance grounds, additional land would be available to purchase with the added garbage from the Town of Morris using that site as it was discussed at our June 8th meeting. However, before any commitment is made, Councillor Dave Waldner felt that some form of local reaction should be attempted to the aspect of having the Rosenort nuisance disposal site being used by the R. M. of Morris and the Town of Morris. He has contacted the Rosenort Chamber of Commerce and it was felt that some form of public meeting should be held to discuss this matter and other community concerns.

Council then recessed for lunch at 12:10 P.M. to reconvene at 1:15 P.M.

Conditional  
Use 1/89  
L. Goossen  
SW 4-6-1W
